### Home Product Center (HMPRO TB, BUY, TP: THB17.20)

Seeking Rebounds; Still BUY

Company Update

Still BUY, new THB17.20 TP (DCF) from THB18.20, 46% upside and 3-4% yields. Management, at Thursday's analysts briefing, guided on its cautious stance with regards to 4Q23-1Q24 SSSG. Still, an uptrend in private label product mix and the planned opening of more hybrid store formats may support profit margins and earnings ahead. We believe 4Q23 net profit may turn to a slight YoY growth and rebound QoQ while 2024 core earnings growth could ramp up to 10% (2023F: +4%). Home Product Center's undemanding valuation (c.-2SD) may imply limited downside.
