Looking Forward To FY25; Still OVERWEIGHT

• Still O/W; Top Pick: CH Karnchang. We believe this year's bidding cycle for new infrastructure projects by the Government is over, and the next cycle will start in FY25. We expect the airport expansion and new motorway route projects to be among the first to be opened for bidding next year.

- Unlike previous years, we expect that there will not be any bidding process for public infrastructure projects in December. Therefore, the bid for the new double-track railway route (Jira-Khon Kaen), which will see a JV of two medium-sized construction players securing the project, should represent the last bidding activity for FY24.
- New high-priority infrastructure projects in the bidding pipeline (Figure 1), which mainly consist of three transport modes (railway, road, and airport) worth a total of >THB850bn will be postponed to FY25. This includes a highspeed rail (HSR) route extension to the Laos border, with a massive construction value of THB341bn. Excluding this, the pipeline still looks busy with a combined project value of >THB500bn for the next few years.
- We tweak our previous expectation that a series of double-track railway projects will be the next to be launched for bidding following the completion of the bid for the Khon Kaen-Nong Khai route, as these projects are still under the cabinet's consideration process. Our current expectation is that the priority of the bidding process will be skewed towards two airport expansion projects and Motorway No.5 (Rangsit-Bang Pa In), and the bidding process will likely take place in 1H25.
- **Two airport expansion projects**, the Don Mueang Airport (Phase 3) and expansion of the Suvarnabhumi Airport (East), should be the main focus under the project owner as these projects are scheduled to be completed and to commence in FY27 and FY30, respectively. Both projects must be accelerated to ensure their capacities stay ahead of the rising aircraft and passenger traffic.
- Motorway No.5 (Rangsit-Bang Pa In) under the gross-cost public-private partnership (PPP) model of a 30-year operation and maintenance (O&M) contract should be another priority bid, as this project is currently pending Cabinet approval. The project is significant in terms of resolving the missing link in the motorway network for road traffic to the country's Northern region, especially as Motorway No.6 (Bang Pa In-Korat) is currently almost 100% complete.
- Our two covered stocks have fair chances of winning the bids for these infrastructure projects, although they are not the top contenders. However, CH Karnchang has a record-high orderbook on hand (>THB220bn), which should strengthen its revenue visibility for the next six years, while Stecon Group is expecting to secure three new projects: i) THB27bn construction work for the U-Tapao airport expansion, ii) data centre jobs worth THB7.2bn, and iii) renewable very small power producer (VSPP) projects worth THB6bn.
