Dynasty Ceramic (DCC TB)

Better Prospects Ahead

Maintain TRADING BUY and THB2.40 TP, 28% upside and c.4% yield. After facing several challenging quarters of demand, we anticipate a rebound from post-flood renovations in Thailand's affected regions and a

slightly positive impact from government policies in the near term.

- 3Q24 earnings results in line with our estimate. The company announced 3Q24 net profit of THB249m (-16%YoY, -8%QoQ), merely 0.4% higher than our forecast. Similar to the majority of construction material players, Dynasty Ceramic's 3Q24 core revenue fell, to THB1.6bn (-12% YoY, -9% QoQ) in tandem with lower sales volume of 9.2m sq m (-16% YoY) due to seasonal weaker demand QoQ. The YoY decline in core revenue was mainly from slower demand of renovation activities and project development, especially concerns over major flooding in the Northern region. In addition, local players faced major supply pressure caused by ceramic tiles imported from China and India. However, as ASP rose 4.5% YoY and production cost in 3Q24 saw a decline, 3Q24 GPM lifted to 40.2% breaching the <40% level the first time in seven quarters. DCC was also able to control SG&A expenses, especially during the tough quarters while finance cost dipped 18% YoY to reflect the YoY reduction in interest-bearing debt.
- Renovation demand to accelerate in the quarters ahead. DCC's efforts to manage the slowdown in construction material demand throughout the country over the past one year saw a > 10% YoY decline in sales volume. This resulted in 9M24 core revenue and net profit also dipping 10% YoY and 6% YoY. Higher GPM of 39.6% in 9M24 was the only positive factor to mitigate the effect of slower revenue. For the upcoming quarters, a recovery in ceramic tile demand for renovations is expected, especially in the severely impacted flood areas, while the Government's recent policies may help accelerate renovation activities.
- Based on DCC's treasury stock programme, implemented since Aug 2024, it has accumulated 14m ((0.15% of paid-up shares) at an average cost of THB1.98/share) out of 250m shares with a total budget of THB500m. Management has set FY24 capex budget at THB1bn to expand its retail outlet network and execute the electricity savings programme. DCC has also been prudent by maintaining its cash on hand and keeping the dividend payout ratio at 40-50% in FY23. However, we expect the company to gradually raise the payout ratio to its historical level of 70%.
- As our ESG score for DCC remains at 2.7, we apply a 10% ESG discount to arrive TP at THB2.40 based on the terminal growth rate of 0.25%.
