Bangkok Expressway and Metro (BEM TB)

Consistent Growth In FY24 Hurtles On; Keep BUY

- Maintain BUY and SOP-based THB12 TP, 46% upside, 2% yield. On a YTD basis, Bangkok Expressway and Metro is set to continue its earnings growth without any short-term hindrances in sight. Although earnings growth will be slimmer than in previous years, the consistent improvement mainly from Blue Line Mass Rapid Transit ridership prospects should continue.
- Chance of hitting new quarterly earnings high in 3Q24. We expect BEM's 3Q24F core profit to grow to THB1.04bn (+7% YoY, +3% QoQ), which should represent a new high for its quarterly earnings. The organic growth of Blue Line MRT business will take on the most prominent role in driving YoY and QoQ growths. Although 3Q24F core profit is expected to post only a slim QoQ growth, we regard this as an impressive feat as there is only one SET-listed company which normally pays the interim dividend to BEM in 3Q vs two companies simultaneously paying in 2Q.
- The Blue Line MRT business should be credited with bringing consistent growth to BEM's overall earnings prospect for both 3Q24 and 9M24. Just like in previous quarters, MRT ridership numbers in 3Q24 delivered YoY growth throughout the quarter. After average daily ridership increased +6% MoM to mark a new high of 450k in Aug 2024, it slightly declined 3% MoM to 438k in Sep 2024. The 3Q24 average ridership is 438k per day (+7% YoY, +11% QoQ). For 9M24, average ridership rose to 421k per day (+10% YoY) as every month saw a growth range of 4-14% YoY. In addition to the Blue Line MRT route's ongoing organic growth, there were other positive factors including: i) Yellow Line MRT's consistently growing ridership reaching an average of 41k per day in Sep 2024 and is on the path to cross the 100k per day threshold, ii) the passenger traffic within Blue Line MRT's Queen Sirikit National Convention Centre station supported by busier meetings, incentives, conferences & exhibitions (MICE) activities, and iii) new mixed-use complex projects along Blue Line MRT route commencing operations.
- Expressway traffic numbers progressed sideways and has stayed at a 3Q24 average of 1.12m trips per day (+0.2% YoY, +2% QoQ). The seasonal QoQ improvement mainly came from the full-quarter resumption of the school semester and absence of long holiday periods. For 9M24, traffic number averaged at 1.11m trips per day, which was flat YoY. This may imply that the current sideways pattern should continue in 4Q24.
- No short-term hindrances. As its businesses are likely to continue setting higher key indicators for FY24F, especially in November, we expect 4Q24 core profit (excluding dividends from related companies) to grow 8% YoY.
- We retain our THB12 TP, which includes an unchanged 2% ESG premium due to BEM's 3.3 ESG score, which is higher than the country median. Key risks: Weaker-than-expected future ridership and traffic growths.

E: GOOD

BEM has assured that the expressway users are provided with convenient, fast, safe services, by which the economic losses caused by fuel burning in the course of traffic congestion can be minimised. As for the metro system, in addition to safe, convenient, fast services provided to users, it is also an eco-friendly public transport system that consumes clean energy, helps minimise air pollution, and reduces greenhouse gas and carbon dioxide emissions. **S: EXCELLENT**

BEM has carried out activities based on responsibility for impact its business has had on communities and the society. It also participates in helping to develop and maintain the well-being of communities. Its guidelines for operations on care for and collaborations in community development are divided into three target groups: i) Origin (communities surrounding the workplaces), ii) middle-way (communities along the service routes), and iii) destination (society as a whole).

G: EXCELLENT

The structure and agility of BEM's governance is essential to ensure consistency in: i) Strategic risk management; and ii) giving critical, accurate and timely information throughout the entire IT governance system. This is so that BEM can maximise efficiency in managing resources, in response to the ever-changing business environment.

Emissions And ESG

Trend analysis

BEM collected GHG emissions data from both its expressway and MRT businesses in FY23 and started releasing Scope 3 data during the same period. Other indirect GHG emissions (Scope 3) include Category 1 purchased goods and services, Category 3 - fuel & energyrelated activities, Category 5 - waste generated in operations, Category 7 - employee commuting, and Category 13 - downstream-leased assets. Between the two businesses, MRT generated the majority of BEM's GHG emissions, accounting for >75% of Scope 1 and >90% of Scopes 2 and 3. Higher numbers in FY23 were related to higher MRT ridership and expressway traffic.

Latest ESG-Related Developments

- BEM aims to achieve carbon neutrality by 2050, and has put in place procedures for management of waste from various activities for efficient waste disposal, including recycling for reuse.
- BEM promotes the optimal use of resources and environmental impact reduction from internal processes, both directly and indirectly, among its staff and contractors. Such initiatives are to be extended to service users, the society, and communities along the metro and expressway routes through environmental promotion activities. The company looks to promote environmental awareness in society and communities to reduce air pollution.

Where the report is distributed in Singapore to a person who is not an Accredited Investor, Expert Investor or an Institutional Investor, RHB Bank Berhad (through its Singapore branch) accepts legal responsibility for the contents of the report to such persons <u>only to the extent</u> required by law. Singapore recipients <u>should</u> contact RHB Bank Berhad (through its Singapore branch) in respect of any matter arising from or in connection with the report.

United States

This report was prepared by RHB is meant for distribution solely and directly to "major" U.S. institutional investors as defined under, and pursuant to, the requirements of Rule 15a-6 under the U.S. Securities and Exchange Act of 1934, as amended (the "Exchange Act") via a registered U.S. broker-dealer as appointed by RHB from time to time. Accordingly, any access to this report via Bursa Marketplace or any other Electronic Services Provider is not intended for any party other than "major" US institutional investors (via a registered U.S broker-dealer), nor shall be deemed as solicitation by RHB in any manner. RHB is not registered as a broker-dealer in the United States and currently has not appointed a U.S. broker-dealer. Additionally, RHB does not offer brokerage services to U.S. persons. Any order for the purchase or sale of all securities discussed herein must be placed with and through a registered U.S. broker-dealer as appointed by RHB from time to time as required by the Exchange Act Rule 15a-6. For avoidance of doubt, RHB reiterates that it has not appointed any U.S. broker-dealer during the issuance of this report. This report is confidential and not intended for distribution to, or use by, persons other than the recipient and its employees, agents and advisors, as applicable. Additionally, where research is distributed via Electronic Service Provider, the analysts whose names appear in this report are not registered or qualified as research analysts in the United States and are not associated persons of any registered U.S. broker-dealer as appointed by RHB from time to time and therefore may not be subject to any applicable restrictions under Financial Industry Regulatory Authority ("FINRA") rules on communications with a subject company, public appearances and personal trading. Investing in any non-U.S. securities or related financial instruments discussed in this research report may present certain risks. The securities of non-U.S. issuers may not be registered with, or be subject to the regulations of, the U.S. Securities and Exchange Commission. Information on non-U.S. securities or related financial instruments may be limited. Foreign companies may not be subject to audit and reporting standards and regulatory requirements comparable to those in the United States. The financial instruments discussed in this report may not be suitable for all investors. Transactions in foreign markets may be subject to regulations that differ from or offer less protection than those in the United States.

DISCLOSURE OF CONFLICTS OF INTEREST

RHB Investment Bank Berhad, its subsidiaries (including its regional offices) and associated companies, ("RHBIB Group") form a diversified financial group, undertaking various investment banking activities which include, amongst others, underwriting, securities trading, market making and corporate finance advisory.

As a result of the same, in the ordinary course of its business, any member of the RHBIB Group, may, from time to time, have business relationships with, hold any positions in the securities and/or capital market products (including but not limited to shares, warrants, and/or derivatives), trade or otherwise effect transactions for its own account or the account of its customers or perform and/or solicit investment, advisory or other services from any of the subject company(ies) covered in this research report.

While the RHBIB Group will ensure that there are sufficient information barriers and internal controls in place where necessary, to prevent/manage any conflicts of interest to ensure the independence of this report, investors should also be aware that such conflict of interest may exist in view of the investment banking activities undertaken by the RHBIB Group as mentioned above and should exercise their own judgement before making any investment decisions.

In Singapore, investment research activities are conducted under RHB Bank Berhad (through its Singapore branch), and the disclaimers above similarly apply.
