Consumer Central Retail Corp (CRC TB) Home Product Center (HMPRO TB) Siam Global House (GLOBAL TB) Dohome (DOHOME TB) CP All (CPALL TB) Berli Jucker (BJC TB) Thanapiriya (TNP TB)	<p>The Centre for Economic Situation Administration (CESA) announced on Wednesday (7 Oct) that the Government will give a tax deduction of up to THB30,000 on purchases of goods and services between 23 Oct and 31 Dec – this is being done to boost domestic consumption and revive an economy stumbling from the impact of the coronavirus pandemic. The measure, which was approved by the committee, will still need Cabinet approval.</p> <p>CESA expects 4m people to take part in this scheme, which is aimed at boosting spending. However, it is expected to reduce state tax revenue by around THB12bn. Books and items under the <i>One-Tambon-One-Product</i> project are included under this scheme, but alcohol, cigarettes, lottery tickets, petrol, accommodation, and air tickets are excluded. (<i>Bangkok Post</i>)</p>	<p>We are optimistic on this initiative, as it may strongly help boost spending among middle- to high-income earners during the festive high season for retail in 4Q20. Such a tax rebate is an attractive 2x higher than what was offered during previous years.</p> <p>This move, in our view, will provide short-term positive sentiment to the domestic retail sector. Strong benefits should go to discretionary retailers, including Central Retail Corp (CRC TB), Home Product Center (HMPRO TB), Siam Global House (GLOBAL TB), and Dohome (DOHOME TB). It may be also positive to some grocery names, mainly CP All's (CPALL TB) wholesales subsidiary Siam Makro, Berli Jucker (BJC TB), and Thanapiriya (TNP TB).</p> <p>We maintain our calls and TPs for such stocks under our coverage.</p>	Sector: NEUTRAL  Stocks:  CRC: NOT RATED  HMPRO: TAKE PROFIT, TP: THB12.60  GLOBAL: TAKE PROFIT, TP: THB17.50  DOHOME: NOT RATED  CPALL: BUY, TP: THB77.00  BJC: BUY, TP: THB45.00  TNP: NOT RATED
Hospitality	<p>The Centre for COVID-19 Situation Administration approved on Wednesday (7 Oct) the extension of the "We Travel Together" domestic tourism stimulus campaign – as proposed by the Tourism Authority of Thailand – to 31 Jan 2021. It was originally slated to end on 31 Oct.</p> <p>Thai citizens who apply for the campaign will be also eligible to redeem 40% discounts on hotel accommodations and food within their hometowns. Previously, they could only redeem such discounts from provinces outside of their own. These revised measures will be passed to the Cabinet for further endorsement. (<i>Bangkokbiznews</i>)</p>	<p>The extension of this campaign should be short-term positive to local hotel operators, since the redemption is still currently low at 28% for the 5m nights of hotel accommodations in total that are being subsidised. The domestic tourism market may also be lively during the 4Q20 high season, which may help hotel operators to improve their QoQ operations – allowing them to attain lower negative earnings.</p> <p>However, a massive influx of international tourists is still required to bring the industry back to normal levels – this may take a couple of years, given the current uncertainties.</p>	UNDERWEIGHT

<b>Advance Info Service (ADVANC TB)</b>	220.00	26.80	<ul style="list-style-type: none"> <li>Outlook should continue to recover with cost management on focus. While we expect the normalisation of prepaid segment demand, subs acquisition activities and easing competition to gradually drive topline to recovery in 2H20, we think a value-to-money strategy through a bundling package should continue to yield additional revenue to the group</li> <li>The toning down of capex guidance should ease investor concern over the imminent margins pressure. We expect the impact from the roll-out of 5G network to be limited, as it should be partially absorbed by network cost saving initiative, staggered payment profile, and tax incentive scheme</li> </ul>
<b>Bangkok Chain Hospital (BCH TB)</b>	17.50	24.11	<ul style="list-style-type: none"> <li>We still expect to see robust COVID-19 screening services demand throughout 2H20 on the continuous return of students studying abroad, migrant workers, and business travellers after border restrictions are relaxed. The doubling of its capacity under the alternative state quarantine should boost upside from this new revenue stream and bolster FY20 earnings</li> <li>We expect to see strong 2H20 recovery in SSO revenue, driven by the resumption of pent-up demand from high-cost care, trauma, and dental services. We also think global budget disbursements could bring further upsides this year, thanks to relatively lower insured patients traffic during COVID-19</li> </ul>
<b>Berli Jucker (BJC TB)</b>	45.00	28.57	<ul style="list-style-type: none"> <li>Improving sales for Berli Jucker's modern retail business, based on full-quarter operations in 3Q20 for the non-food segment, and smaller B2B sales. These factors should also benefit profit margins</li> <li>Average occupancy rates at Big C's leasable areas rebounded to &gt;90% from an 83% bottom in April, with less rental rate discounts given to tenants, as the bulk of its malls are in non-tourist destinations</li> <li>Non-retailing businesses (c.30% of sales) remain in an uptrend</li> </ul>
<b>Central Pattana (CPN TB)</b>	56.00	23.76	<ul style="list-style-type: none"> <li>Improving operations at most of CPN's malls nationwide, in terms of tenants' business resumption and customer traffic. This may help it pare down discounts it gave on rental rates</li> <li>CPN's opening of its Ayutthaya mall may be postponed from 1H21 to 2H21, while schedules for other three new mall openings remain unchanged over 2H21F-2023F</li> <li>Quarterly earnings may pick up throughout 3Q20F-4Q20F. Its current FY21F P/E also looks undemanding, which should make the stock an attractive long-term investment</li> </ul>
<b>Charoen Pokphand Foods (CPF TB)</b>	38.00	35.71	<ul style="list-style-type: none"> <li>The farm unit should continue to outperform. While we expect to see a resilient recovery in broiler export volumes – on demand resumption from Europe and Japan – the Brazilian broiler products ban imposed by several nations on food safety concerns should create positive momentum for CPF's broiler unit in 2H20</li> <li>We keep our positive view for the swine unit and expect it to stay on the uptrend cycle. This is on solid demand from Asian states with lower production outputs from their key suppliers</li> <li>The pending acquisition of Tesco stores here and in Malaysia – awaiting Office of Trade Competition Commission approval in 4Q20 – could boost local sales via future hypermarket distribution channels</li> </ul>
<b>CP All (CPALL TB)</b>	77.00	27.80	<ul style="list-style-type: none"> <li>In 2H20, we expect a gradual recovery of convenience stores sales in 2H20, as a V-shaped recovery, while Siam Makro's operations remain solid</li> <li>As it has the most extensive store network, CP All may strongly benefit the new normal in terms of facilitating delivery of products and services through its developing omni-channel platform</li> <li>Still the best-in-class retailer with intact new store opening plan. Expect full-year earnings returning to pre-pandemic levels in 2021</li> </ul>
<b>Osotspa (OSP TB)</b>	49.00	37.06	<ul style="list-style-type: none"> <li>The unlocking of sales and margins from two new production lines for C-Vitt and the new beverage filling plant in Myanmar will boost Osotspa's 2H20F earnings and keep FY20F profit growth at 15%</li> <li>OSP's energy drinks market share gain locally should limit the impact of a consumption slowdown to sales in the short term. New product launches would be another topline support in 2H20F. Cost savings and production efficiency enhancement regarding its Fit-Fast-Firm corporate campaign are also intact, and the benefits are likely to accelerate in the latter half this year</li> <li>Such the business expansion and operational plans should allow OSP to keep its resilient growth outlook in a longer term</li> </ul>

<b>PTT Exploration &amp; Production (PTTEP TB)</b>	108.00	33.33	<ul style="list-style-type: none"> <li>PTT Exploration &amp; Production is a good proxy for crude oil price. We expect crude oil price to average USD45.00 in 4Q20. We expect OPEC+'s 7.7mbpd production restraint in 2H20 to have a positive impact on the global oil market. We expect delivery to recover, higher-cost producers to shut-in uneconomical wells, and the global inventory to drawdown</li> <li>70% of PTTEP's earnings are from natural gas, which is sold to PTT via long-term take or pay contracts. The natural gas price is indirectly linked with crude oil with time lag of 1-6 months. The remaining portion of its products are liquids, which are sold at the market price of crude oil</li> <li>We expect sales volume to be boosted YOY on recent acquisitions (Murphy and Partex). We are also positive on its SK410B natural gas find in Malaysia, which may be fast-tracked into development</li> </ul>
<b>Siam Cement (SCC TB)</b>	440.00	26.07	<ul style="list-style-type: none"> <li>There are three growth drivers, including an upcycle of petrochemical spreads, a series of new infrastructure projects to start the construction process, and growth expansion in the packaging business especially after SCG Packaging raises funds from its IPO</li> <li>Its earnings going forward should rely mainly on petrochemical unit's performance normalising to lower levels in 2H20 and growing stronger on a full-year basis in FY21</li> </ul>
<b>Supalai (SPALI TB)</b>	19.40	20.50	<ul style="list-style-type: none"> <li>Earnings should improve significantly in 2H20, with four condominium projects starting to be transferred during this period. The revenue from these projects should enhance revenue growth and GPM in 2H20.</li> <li>Revenue upside could emerge if Supalai is able to transfer its mega-size Supalai Oriental Sukhumvit 39 condominium project, which is valued at THB10bn, within 4Q20.</li> <li>Consistent earnings growth in FY21F-22F is supported by orderbook of THB12-14bn per year to be recognised in the next two years. In addition, we expect the company to enjoy the advantages of being a well-known developer in the low-rise project segment.</li> </ul>
