

## Thailand Morning Cuppa

### Bulletin

STOCK/SECTOR	NEWS	COMMENT	RATING
Hospitality Airports Of Thailand (AOT TB) Central Plaza Hotel (CENTEL TB) The Erawan Group (ERW TB) Minor International (MINT TB)	<p>The Government said Thailand had recorded about 2.03m foreign tourist arrivals between 1 Jan and 26 Jun following the easing of many pandemic entry restrictions. Citing an International Air Transport Association (IATA) forecast, it also said that total foreign visitors to the kingdom could exceed 10m this year.</p> <p>The Top 5 YTD, in terms of the number of visitors, came from India (220,962 visitors), Malaysia (184,782 visitors), the UK (121,328 visitors), Singapore (121,264 visitors), and the US (102,964 visitors).</p> <p>Meanwhile, the Civil Aviation Authority of Thailand or CAAT on Monday issued a notice to airlines on the relaxation of entry rules from 1 Jul onwards. The new guidelines: i) No Thailand Pass required to enter the kingdom, ii) vaccinated passengers can enter without taking COVID-19 tests but should take a rapid antigen test if they develop symptoms, iii) unvaccinated or partially vaccinated passengers must have a negative rapid antigen or RT-PCR test taken within 72 hours of departure, iv) airlines must check their passengers' vaccination and negative test result certificates, and v) airlines can submit health certificates for their crews to facilitate immigration procedures. (<i>Bangkok Post, The Nation</i>)</p>	<p>Entry requirements are being relaxed in a bid to bolster international tourist arrivals in 2H22, which may be strongly positive to both airport and hotel operators in Thailand. The number of foreign tourists for June MTD stood at 0.71m or 28,591 visitors per day – we think it may end up at 0.86m for the full month of June (+64% MoM). This is because pent-up demand for travel – among both short- and long-haul source markets – may allow the foreign visitor recovery momentum to continue despite the historical low travel season in 3Q. We then believe there will be a jump during the final quarter.</p> <p>Consequently, we are of the view that such a revival pace may result in 2022 visitor numbers to hit IATA and the Tourism Authority of Thailand's 10m target. This is close to our current assumption of 11m vs a bottom of 0.43m in 2021.</p> <p>We maintain our call on the hospitality sector, expecting an improving earnings momentum with smaller quarterly losses over 2Q22-3Q22. Our Top Picks remain Airports of Thailand (AOT) as the first-tier tourism proxy and Minor International (MINT). The latter is because its FY22F earnings may see a turnaround, driven by a robust performance outlook for its European hotels and restaurants in Thailand, as well as an improving operating leverage and efficient opex controls amid cost hikes that may limit inflationary impacts. We retain our calls and TPs for AOT and MINT, as well as Central Plaza Hotel (CENTEL) and The Erawan Group (ERW), which are under our coverage umbrella.</p>	<p><b>Sector:</b> NEUTRAL</p> <p><b>Stocks:</b> AOT: BUY, TP: THB77.50</p> <p>CENTEL: NEUTRAL, TP: THB37.50</p> <p>ERW: NEUTRAL, TP: THB3.60</p> <p>MINT: BUY, TP: THB41.25</p>

**Top BUYs**

	TP (THB)	Upside (%)	Catalysts
<b>Bangkok Dusit Medical Services (BDMS TB)</b>	29.50	18.95	<ul style="list-style-type: none"> <li>The full-year recovery of non-COVID-19 patients (domestic and international), improving numbers of insurance and expatriate patients, and ongoing cost-control efficiencies may continue to drive BDMS outlook and deliver 2022F resilient core profit growth of 16%</li> <li>Improving trends for fly-in foreign patients since 4Q21 may improve further, benefitting its international patient contribution approaching the pre-outbreak levels of c.30%</li> <li>BDMS is gearing towards the digital health ecosystem development. As earnings upside, it targets this platform to attain 20m participating customers and contribute 10-15% of total revenue in the next five years from 1% now</li> </ul>
<b>Bangkok Expressway and Metro (BEM TB)</b>	9.90	13.79	<ul style="list-style-type: none"> <li>Both BEM's expressway traffic and mass rapid transit (MRT) ridership decreased further in 3Q21, making it the hardest hit quarter YTD. For FY21, Aug-21 was the lowest month for recording expressway traffic and also MRT ridership</li> <li>We expect the company's performance to improve QoQ in 4Q21, as we expect BEM's expressway traffic and MRT ridership numbers to bounce back – when the number of vaccinated persons exceed &gt;90% of the total in Bangkok and the surrounding areas</li> <li>Although the bidding process for the Orange Line MRT has been delayed due to legal issues between Mass Rapid Transit Authority and one bidder, BEM still has an edge over its competitor. We expect the results of this bid to occur to FY22</li> </ul>
<b>Central Retail Corporation (CRC TB)</b>	45.00	29.50	<ul style="list-style-type: none"> <li>CRC's recovery is on track, as existing businesses may improve throughout 2022, mainly the fashion and hardline segments, which should benefit revenue and GPMs</li> <li>Ramping up new outlets, with plans to open 10 construction material stores, three retail malls and three departmental stores in Thailand, along with a mall and 13 food stores in Vietnam in 2022. It will also open &gt;100 stores in new small-size formats, including the entry to the Thai health and wellness retail segment</li> <li>1Q22 momentum may continue from 4Q21's. SSSG will remain strong at around mid-teen levels, thanks to improving demand for spending post-COVID-19 lockdowns in Thailand and Italy. QTD malls' rent discounts may improve to 19-15%</li> <li>Core profit may jump from an extreme low base of THB189m in 2021 to THB4.89bn in 2022, and may achieve the pre-pandemic levels in 2023. Improving retail mall operations could be another support for the strong bottomline growth</li> </ul>
<b>Charoen Pokphand Foods (CPF TB)</b>	34.00	29.52	<ul style="list-style-type: none"> <li>CPF should benefit from high swine and broiler prices, owing to the recovery in demand, and a supply shortage. We believe it is in a good position to capture the recovery in consumer spending, post pandemic, thanks to its diversified business model and established brands</li> <li>The Russia-Ukraine conflict to have limited impact on CPF. Sales from Russia contribute only 3% of CPF's revenue, and the group has no business in Ukraine. The bulk of its business in Russia (c.98%) is the swine and broiler businesses – mainly sales of these products for consumption within Russia</li> <li>Corn prices are expected to reduce, leading to lower pressure from raw material costs. Normally, agricultural raw material cost contributes approximately 60-70%. When the raw material prices are more stable, it will be better for food producers to manage its costs</li> <li>Saudi Arabia starts to import chicken from Thailand after the ban for 17 years. Saudi Arabia is a potential market for Thai producers as it is among top 10 world major chicken importers</li> </ul>
<b>Home Product Center (HMPRO TB)</b>	18.70	42.75	<ul style="list-style-type: none"> <li>Key earnings supports this year: i) Strong performance rebounds for stores in tourism-led cities on improved demand, ii) the new housing market that is set to grow 5% countrywide in value terms (2021: -10%), iii) ramping up launches of new stores to seven in 2022 (2021: 2), and iv) recurring income recovery in terms of mall occupancy rates and smaller rental rate discounts given to tenants</li> <li>Seeking stronger SSSG of 5-7% over 2022F from 3.4% in 2021, given the low base in 1Q21 and 3Q21. 2M22 SSSG is likely to be in positive territory</li> <li>HMPRO may enhance its EBIT margin and NPM by 1.0-1.3ppts this year. Its plan to enhance Mega Home's operational efficiencies and private label product mix should help maintain overall GPM. Its retail mall recovery may also benefit the bottomline and profit margins</li> <li>Expect resilient 2022 earnings growth of 14% - returning to the pre-outbreak levels, up from 5% in 2021</li> </ul>
<b>Kasikornbank (KBANK TB)</b>	175.00	16.67	<ul style="list-style-type: none"> <li>KBANK is ready for the new digital era, as it has business units that are fully equipped with new tech. This will be hidden value waiting to be unlocked in future</li> <li>Historical price trends suggest its share price should outperform peers when the economy is on a recovery path</li> <li>KBANK offers lowest CIR in the banking industry, while its asset quality remains manageable.</li> <li>We expect 4Q21 earnings to rise QoQ, mainly on a rebound in non-II and lower ECL, despite seasonally higher opex</li> </ul>

**Top BUYs**

	TP (THB)	Upside (%)	Catalysts
<b>Kiatnakin Phatra Financial Group (KKP TB)</b>	75.00	18.11	<ul style="list-style-type: none"> <li>• KKP stands out among the smaller banks, due to its above-average growth. With its aggressive strategy, it should be able to sustain earnings growth while keeping asset quality under control. On top of high yields, KKP's valuation remains attractive at 1x P/BV vs 13% ROE. Its banking and capital businesses still have the potential to grow with quality</li> <li>• Preview of 1Q22. We expect 1Q22 net profit to rise QoQ, underpinned by lower provisions and opex, higher loan growth, and fee income</li> <li>• We raise FY22-23F earnings by 8-10% to be in line with KKP's FY22 targets. The change in assumptions include higher loan growth, lower losses from repossessed cars, and higher fee income (despite a lower NIM, and higher opex). Our TP rises to THB75.00 from THB66.00</li> </ul>
<b>Osotspa PCL (OSP TB)</b>	42.50	23.19	<ul style="list-style-type: none"> <li>• We expect OSP may be able to recover sales and retain local market share for energy drinks – and leadership position in functional beverages – on strong branding</li> <li>• The demand recovery, OSP's launch of premium energy drinks, and new corporate cost-savings programme could be 2022's 18% earnings growth drivers and may limit impacts from the uncertain raw material cost outlook to profit margins</li> <li>• Consumers may be able to afford the new value-added energy drinks. If successful, it can deliver strong upsides to sales and GPMS</li> </ul>
<b>PTT Oil and Retail Business (OR TB)</b>	35.00	33.33	<ul style="list-style-type: none"> <li>• The National Energy Policy Committee is planning to remove the THB40bn borrowing cap of the state oil fund in response to Russia's invasion of Ukraine. The removal the loan ceiling cap of the oil fund will allow the Government to maintain lower retail fuel prices, which encourages oil consumption activities</li> <li>• The recovery of Thai economy will boost the demand for consumption and travelling along its oil stations OR will get benefit from its oil and non-oil retail businesses via more than 2,300 nationwide oil stations</li> <li>• Under the development of several potential businesses to capture future trend such as EV and healthy food products</li> </ul>
<b>Supalai PCL (SPALI TB)</b>	24.90	31.05	<ul style="list-style-type: none"> <li>• FY22 new project launch targets should be SPALI's latest record high with +61% YoY growth. The key feature for 2022 should be that new projects in provincial areas will play a more critical role with a significantly higher proportion (52% of overall new project value launched in FY22)</li> <li>• Despite an aggressive FY22 new launch target, SPALI will aim for 16% YoY growth in presales this year due to the higher reliance on provincial projects</li> <li>• FY22 revenue target is more likely to be achieved, as there will be seven condominium projects gradually transferred throughout 2022 and &gt;50% of its FY22 revenue target has been secured by current orderbooks on hand</li> </ul>

Any securities offered or sold, directly or indirectly, in Indonesia or to any Indonesian citizen or corporation (wherever located) or to any Indonesian resident in a manner which constitutes a public offering under Indonesian laws and regulations must comply with the prevailing Indonesian laws and regulations.

**Singapore**

This report is issued and distributed in Singapore by RHB Bank Berhad (through its Singapore branch) which is an exempt capital markets services entity and an exempt financial adviser regulated by the Monetary Authority of Singapore. RHB Bank Berhad (through its Singapore branch) may distribute reports produced by its respective foreign entities, affiliates or other foreign research houses pursuant to an arrangement under Regulation 32C of the Financial Advisers Regulations. Where the report is distributed in Singapore to a person who is not an Accredited Investor, Expert Investor or an Institutional Investor, RHB Bank Berhad (through its Singapore branch) accepts legal responsibility for the contents of the report to such persons only to the extent required by law. Singapore recipients should contact RHB Bank Berhad (through its Singapore branch) in respect of any matter arising from or in connection with the report.

**United States**

This report was prepared by RHB is meant for distribution solely and directly to “major” U.S. institutional investors as defined under, and pursuant to, the requirements of Rule 15a-6 under the U.S. Securities and Exchange Act of 1934, as amended (the “Exchange Act”) via a registered U.S. broker-dealer as appointed by RHB from time to time. Accordingly, any access to this report via Bursa Marketplace or any other Electronic Services Provider is not intended for any party other than “major” US institutional investors (via a registered U.S broker-dealer), nor shall be deemed as solicitation by RHB in any manner. RHB is not registered as a broker-dealer in the United States and currently has not appointed a U.S. broker-dealer. Additionally, RHB does not offer brokerage services to U.S. persons. Any order for the purchase or sale of all securities discussed herein must be placed with and through a registered U.S. broker-dealer as appointed by RHB from time to time as required by the Exchange Act Rule 15a-6. For avoidance of doubt, RHB reiterates that it has not appointed any U.S. broker-dealer during the issuance of this report. This report is confidential and not intended for distribution to, or use by, persons other than the recipient and its employees, agents and advisors, as applicable. Additionally, where research is distributed via Electronic Service Provider, the analysts whose names appear in this report are not registered or qualified as research analysts in the United States and are not associated persons of any registered U.S. broker-dealer as appointed by RHB from time to time and therefore may not be subject to any applicable restrictions under Financial Industry Regulatory Authority (“FINRA”) rules on communications with a subject company, public appearances and personal trading. Investing in any non-U.S. securities or related financial instruments discussed in this research report may present certain risks. The securities of non-U.S. issuers may not be registered with, or be subject to the regulations of, the U.S. Securities and Exchange Commission. Information on non-U.S. securities or related financial instruments may be limited. Foreign companies may not be subject to audit and reporting standards and regulatory requirements comparable to those in the United States. The financial instruments discussed in this report may not be suitable for all investors. Transactions in foreign markets may be subject to regulations that differ from or offer less protection than those in the United States.
