10 March 2022

# CH Karnchang (CK TB)

## **Growth Prospects Are Turning Around; BUY**

- Maintain BUY and SOP-based TP of THB23.30, 16% upside with 2% FY22F yield. CH Karnchang is set to see its orderbook and earnings trends reverse direction to positive growth. The major catalyst for this turnaround: inflow of newly awarded construction projects.
- Growth of construction orderbook is intact. The company has already begun winning new orders. In end-2021, it scored two jobs for the doubletrack railway project (Denchai-Chiangrai-Chiang Khong) which boosted its orderbook to THB45.8bn as of end-FY21, vs under THB25.7bn in 3Q21. Its orderbook is set to grow further, to THB65bn, as there will be a signing ceremony between the bid winners of the MRT Purple Line construction project and Mass Rapid Transit Authority (MRTA) on 12 Mar. Note that CK's JV with Sino-Thai Engineering & Construction (STEC TB, BUY, TP: THB16.30) has won two contracts worth a total of THB33bn for the construction of the underground portion of the line.
- Potential for a further uptrend. Growth may continue to spike upwards, as CK is working on winning additional jobs. These include the Luang Prabang hydropower project on the Mekong River the most sought-after contract, since this mega-project is worth over THB75bn. If CK wins this contract, its orderbooks may exceed THB100bn, with a revenue visibility of six years. Although management targets FY22 core revenue at only THB12bn (flat YoY), revenue from this hydropower project should bring about a major upside. Note that the company can book THB3bn in revenue from this project immediately after signing the contract.
- Slight concerns over GPM. While CK has gained a reputation for controlling costs well resulting in sturdy GPMs its 4Q21 GPM shrank to 8.9% in 4Q21 from 10% during 1Q21-3Q21, due to the high proportion of revenue coming from high-rise building projects. Its GPM should remain relatively resilient in the short term, as long as its construction activities on the MRT Purple Line begin to contribute revenue.
- Better timing for an earnings recovery. CK's FY21 recurring net profit plunged by 62% YoY, as numbers were weighed down by: i) Lower construction revenue, in tandem with the depressed orders on hand; and ii) higher finance costs. We expect 2022 to bring about opportunities for the company to boost its core earnings – especially due to a stronger orderbook (leading to an estimated core revenue growth of 28% YoY) and improved profits from its investment in Bangkok Expressway & Metro (BEM TB, BUY, TP: THB10.10), which in turn would be driven by higher numbers of both expressway traffic and MRT Blue Line ridership.
- Based on our in-house proprietary methodology, we assign a 2.80 ESG score on CK to derive an intrinsic SOP-based value of THB25.33. We then applied an 8% discount to arrive at our TP of THB23.30.

# Overall ESG Score: 2.80 (out of 4)

CK ensures its operations are in strict compliance with construction-related laws, to mitigate the impact on the environment in every project. It also applies modern technologies and techniques that meet standards, by utilising a Building Information Modelling (BIM) system at the planning stage, to achieve efficiency. This has led to a faster pace of construction works, an ability to control construction quality as well as the usage of resources for maximum benefit, while improving cost management.

CK has initiated community information studies (social mapping), data collection from stakeholders, appointed a community committee that consists of representatives from the Government, project owners, the community, and representatives from the company to participate in discussions (engagement) and identify the main operation plan (master plan), monitor points and objectives, assess the impact, as well as conduct a stakeholder satisfaction
