HANA Microelectronics (HANA TB)

Riding The Semiconductor Boom; BUY

Target Price (Return): THB120 (28.6%) Price (Market Cap): THB93.3 (USD2,251m) ESG score: 3.20 (out of 4) Avg Daily Turnover (THB/USD) 739m/22.4m

- We initiate coverage with BUY and a TP of THB120, 28.6% upside and c.2% yield. HANA Microelectronics is an electronics manufacturer service (EMS) provider focusing on printed circuit board assemblies (PCBA) and integrated circuits (IC) which are high in demand. HANA is currently expanding, with NPAT expected to grow 36% and 26% in FY21F-22F. Its power management business in Korea, which designs and manufactures
- its own silicon devices using silicon carbide (SiC), will likely be a catalyst. • FY22F expected to be a much stronger year. Hana will likely end FY21F with a strong revenue growth of 25% YoY. We estimate FY22F will be an even stronger year, based on company's positive outlook. With the shortage of chips and components likely to carry on in FY22F, demand for
- semiconductors is likely to remain high. As a result, we expect a strong demand for board assembly, IC packaging and testing services to grow 20% in FY22F, from sectors such as automotive, cloud computing, 5G, industrial, and consumer. We also expect higher margins due to its operating leverage, as well as lower production costs, which would further boost HANA's capability. Its expansion plans remain on track, which will boost its capacity at Ayutthaya plant by 25% and at Jiaxing plant by 100%, in time for an expected strong demand during FY22F.
- Potential re-rating: Power management business. Over the past four years, HANA has been working to produce its own SiC devices in Korea. SiC has higher temperature, higher maximum current density, and is suited to be used as base to power applications. HANA designed its first range of products and received positive response from its potential customers. This segment (SiC) is the fastest growing in the power semiconductor industry, driven mainly by the electric vehicles (EV) segment. Successful mass production and adoption of HANA's product will help boost significantly its margins and profitability for the long term. Management expects mass production to begin in 2H23F and achieve breakeven by FY24F. We believe this could be a potential growth driver for HANA and a catalyst for the stock as it would position the company as a manufacturer with more design content and thus higher margins.
- Likely to spur higher in FY21F. We remain bullish on the semiconductor sector and estimate HANA will continue to benefit from the strong demand. As a result, we initiate with BUY and a TP of THB120, based on a FY22F P/E of 30x. Using our in-house proprietary methodology, we derived an ESG score of 3.2. As the ESG score is similar to the median ESG score for our Thailand coverage universe, we do not apply any discount or premium to our TP.

E: EXCELLENT

We would like to highlight the efforts made by HANA for disclosing its GHG emissions, water and electricity usage. GHG emissions have been increasing by 9% over the course of 4 years since 2017. However in 2020, they have started using electricity generated by solar power though it's minimal

S: EXCELLENT

HANA has been certified by international standards for Occupational Health, Safety and Environment (OHSAS 18001 and TIS 18001) and has achieved the new ISO 45001 certification for Occupational Health and Safety Management System with the policy expressing the commitment to operate business not only to resolve health and safety at work but also cover ways to prevent accidents to the workers and the surrounding community. In terms of pay, the median of pay for males is 1.67 higher than women despite women make up 73% of its total workforce.

Independent directors make up 50% of its Board of Directors but only 27% of them are women.

Investment Merits

Strong demand leading to strong growth of 20-25% across its PCBA and IC segments. HANA has been enjoying a strong demand for products in PCBA and IC segments, particularly due to the semiconductor boom, as well as a shortage of supply for components. As a result, we expect a strong demand for board assembly and IC packaging and testing services to grow 25% in FY21F and 20% in FY22F, due to a strong demand from sectors like automotive, cloud computing, 5G, industrial, and consumer. Its mobile telecom accounts for c.27% of its group sales, automotive comprises c.18%, industrials is 15%, RFID 9%, and consumer accounts for 8%. Segmental wise, we expect 5G to lead the way for growth with 10-15% in FY22, while automotive and industrials to grow 10% YoY.

Its expansion plans remain on track which could boosts its capacity at its Ayutthaya plant by 25% and Jiaxing plant by 100%, in time for a demand expected in FY22F.

Figure 2: Segmental growth

Lifting HANA's capabilities and margins: Power management business. Over the past four years, HANA has been working to produce its own SiC devices in Korea. Management expects gross margins for this segment to be 25-30% after reaching critical mass in terms of revenue. The company committed c.USD100m in this business and plans to further expand it in the near future, in two phases, of USD65m in budgeted capex each. SiC has higher temperature, higher maximum current density, and is suited for use as base to power applications. The company designed its first range of products and received positive response from potential clients.

This segment (SiC) is the fastest growing in the power semiconductor industry, driven mainly by the electric vehicle segment. Sectors such as high-end consumer goods, coupled with white goods, as well as cloud computing, are also key customers for this segment.

Successful mass production and adoption of HANA's product could help boost margins and profitability significantly for the long term. Management expects mass production to start in 2H23F and to potentially breakeven by 2024. We believe that this could be a potential growth driver for HANA in the future which could further position the company as a manufacturer with more design content and higher margins.

A leading electronics manufacturing service provider in South-East Asia. HANA manufactures products in six production facilities, employing more than 10,000 employees worldwide. The plants are located in Thailand, China, the US, and Cambodia, with a total manufacturing floor space of over 1,100,000sqf. The company has customers globally across a wide variety of sectors which consists of blue chips premium customers like Sensata, Keyside, Qualcomm, and Texas instruments among others. HANA is one of the leading independent electronics manufacturing service (EMS) companies in South-East Asia, manufacturing high-quality assembly and test products in areas such as microelectronics, semiconductor integrated circuit (IC) and liquid crystal on silicon (LCOS).

Valuation

We initiate coverage on HANA with a BUY and a TP of THB120. Our TP implies 30x FY22 P/E while the stock is now trading at c.23.6x FY22F P/E. The peer average is c.33.8x FY22F P/E. Conservatively, we ascribe a lower P/E multiple than the peer average, to leave a bit of a buffer in case any downside may occur in the event a new variant of COVID-19 spreads globally.

Key Risks

New COVID-19 variant(s) could impact production. An occurrence of a new variant of COVID-19 could cause state lockdowns and factory closures and may impact the production of HANA. In 2020, its Jiaxing plant was the first to be impacted as it lost six weeks of activity due to a country lockdown. Its Cambodia plant was also badly affected as HANA had to lay off 180 staff after its major customer shut down for six months.

Bad weather or natural disasters could also impact operations. Back in 2011, a great flood in Thailand impacted HANA's operations severely and damaged equipment worth up to USD30m. Another such natural disaster could affect HANA negatively.

Raw material price increases or shortages. HANA is exposed to raw material price fluctuations, for the raw materials it uses for its components. This might potentially impact its margins if the company is unable to pass on price increases to its customers. In addition, should prices increase, customers may decide to cut down orders which could affect HANA's competitiveness in the market. Shortages of raw materials will also affect production.

FX. HANA is exposed to FX fluctuations. A weaker THB will likely boost HANA's gross margin and vice versa, as it records sales in USD, while labour costs are mainly in THB. Company's operating profit sensitivity to change in the THB/USD and CNY/USD exchange rates is currently about THB200m per quarter for every 10% change in the average THB/USD and CNY/USD rates ie (1- 0.60) x revenue x 10%.

Company Background

Listed on the Stock Exchange of Thailand (SET) since 1993, HANA is one of the leading independent electronics manufacturing services (EMS) producers in the South East Asia region. HANA is principally engaged in the manufacturing and trading of electronic components, primarily the assembly of components, sub-assemblies and small electronic finished products. Major product groups of HANA include printed circuit board assembly, integrated circuit assembly, and test and microdisplay assembly.

Printed Circuit Board Assembly (PCBA)

PCBA is placing integrated circuits (IC) and other electronic components on a printed circuit board using a procedure known as surface mount device(SMD) technology. HANA manufactures PCBA products in its plants in Lamphun (Thailand) and Jiaxing (China). HANA also offers manufacturing services for other products such as chip-on-board (COB) assembly, wireless radio frequency products, and other electronics devices. Its Cambodian plant focuses on box build products and other labour intensive assemblies. As of 2020, the capacity for this segment was c.1.46bn units.

IC assembly and test

HANA offers a variety of IC assembly and test services such as standard IC products (QFN/DFN package, LGA, MSOP package, SC, SOT, and TSOT package, etc.), LEDs for automotive lighting, optical mouse, DC-DC converter assembly and fiber optic assembly. Its IC assembly and test segment is operating in Ayutthaya, (Thailand) and Jiaxing (China). As of 2020, the capacity for this segment was c.7.81bn units.

Micro display

HANA manufactures liquid crystal on silicon (LCOS) devices which are used for microdisplays and optical telecommunications components as well as radio frequency identification (RFID) passive tags. Initially manufactured in its plant in Ohio, (USA), the devices are also manufactured at their Ayutthaya and Lamphun plants after duplicate production lines have been added since 2004. As of 2020, the capacity for this segment was c.151m units.

Business Analysis

Revenue

Semiconductor cycle downturn in 2019. HANA's revenues have been declining for the past two years. In 2019, HANA recorded revenue of THB20.38m (down 8.4% YoY). This was partly due to a semiconductor cycle downturn which - according to the Semiconductor Industry Association - global semiconductor industry sales were USD412bn in 2019, a decrease of 12% YoY. As export sales account for approximately 65% of total sales, strengthening of THB also contributed to a lower revenue base for the year.

COVID-19 impacted revenue further. HANA's performance was exacerbated by the pandemic in 2020 which resulted in further revenue decline to THB19.28m in 2020 (down 5.4%). Its Jiaxing plant was the first to be impacted as it lost six weeks of activity due to a country lockdown. Its Cambodia plant was also badly affected as HANA had to layoff 180 staff after its major customer shut down for six months.

Upturn in 2021. This year has been profitable for HANA as it recorded 6M21 revenue of THB11.28bn from THB9.2bn, up 22.6% YoY. Its 2Q21 revenue of THB6.06bn (up 32% QoQ) was mostly contributed by its PCBA segment (57% of total revenue) and IC segment (39.2% of total revenue). IC segment saw the highest revenue growth of 32.6%. Going forward with strong demand from its end customers as well as the ongoing shortage in the semiconductor sector, we expect demand to remain strong and envision a revenue growth of 25% in FY21F and 20% in FY22F.

Figure 10: Evolution of revenue and forecast (THBm)

Gross profit and net profit margin

Gross profit margins for 2019 and 2020 were 10.7% and 13.2% respectively, below its 5-year average of 13.5%. Despite a relatively low production output, its microdisplay segment has the biggest gross profit margin, a 5-year average of 34.2% followed by PCBA (14.4%) and IC (9.9%). Going forward, we forecast margins to improve to 15.3% in FY21 and 15.8% for FY22 due to a strong demand as well as lower production costs.

Figure 11: Gross and net profit margins (%)

Capacity and production

Year 2020 recorded a low utilisation rate as its production facilities were impacted by COVID-19 and lockdowns. Utilisation rates for PCBA, IC, and microdisplay were 77.5%, 81%, and 75.5%, below its 5-year averages of 81.4%, 84.5%, and 81% respectively.

This report may further consist of, whether in whole or in part, summaries, research, compilations, extracts or analysis that has been prepared by RHB's strategic, joint venture and/or business partners. No representation or warranty (express or implied) is given as to the accuracy or completeness of such information and accordingly investors should make their own informed decisions before relying on the same.

This report is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to the applicable laws or regulations. By accepting this report, the recipient hereof (i) represents and warrants that it is lawfully able to receive this document under the laws and regulations of the jurisdiction in which it is located or other applicable laws and (ii) acknowledges and agrees to be bound by the limitations contained herein. Any failure to comply with these limitations may constitute a violation of applicable laws.

All the information contained herein is based upon publicly available information and has been obtained from sources that RHB believes to be reliable and correct at the time of issue of this report. However, such sources have not been independently verified by RHB and/or its affiliates and this report does not purport to contain all information that a prospective investor may require. The opinions expressed herein are RHB's present opinions only and are subject to change without prior notice. RHB is not under any obligation to update or keep current the information and opinions expressed herein or to provide the recipient with access to any additional information. Consequently, RHB does not guarantee, represent or warrant, expressly or impliedly, as to the adequacy, accuracy, reliability, fairness or completeness of the information and opinion contained in this report. Neither RHB (including its officers, directors, associates, connected parties, and/or employees) nor does any of its agents accept any liability for any direct, indirect or consequential losses, loss of profits and/or damages that may arise from the use or reliance of this research report and/or further communications given in relation to this report. Any such responsibility or liability is hereby expressly disclaimed.

Whilst every effort is made to ensure that statement of facts made in this report are accurate, all estimates, projections, forecasts, expressions of opinion and other subjective judgments contained in this report are based on assumptions considered to be reasonable and must not be construed as a representation that the matters referred to therein will occur. Different assumptions by RHB or any other source may yield substantially different results and recommendations contained on one type of research product may differ from recommendations contained in other types of research. The performance of currencies may affect the value of, or income from, the securities or any other financial instruments referenced in this report. Holders of depositary receipts backed by the securities discussed in this report assume currency risk. Past performance is not a guide to future performance. Income from investments may fluctuate. The price or value of the investments to which this report relates, either directly or indirectly, may fall or rise against the interest of investors.

This report may contain comments, estimates, projections, forecasts and expressions of opinion relating to macroeconomic research published by RHB economists of which should not be considered as investment ratings/advice and/or a recommendation by such economists on any securities discussed in this report.

This report does not purport to be comprehensive or to contain all the information that a prospective investor may need in order to make an investment decision. The recipient of this report is making its own independent assessment and decisions regarding any securities or financial instruments referenced herein. Any investment discussed or recommended in this report may be unsuitable for an investor depending on the investor's specific investment objectives and financial position. The material in this report is general information intended for recipients who understand the risks of investing in financial instruments. This report does not take into account whether an investment or course of action and any associated risks are suitable for the recipient. Any recommendations contained in this report must therefore not be relied upon as investment advice based on the recipient's personal circumstances. Investors should make their own independent evaluation of the information contained herein, consider their own investment objective, financial situation and particular needs and seek their own financial, business, legal, tax and other advice regarding the appropriateness of investing in any securities or the investment strategies discussed or recommended in this report.

This report may contain forward-looking statements which are often but not always identified by the use of words such as "believe", "estimate", "intend" and "expect" and statements that an event or result "may", "will" or "might" occur or be achieved and other similar expressions. Such forward-looking statements are based on assumptions made and information currently available to RHB and are subject to known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievement to be materially different from any future results, performance or achievement, expressed or implied by such forward-looking statements. Caution should be taken with respect to such statements and recipients of this report should not place undue reliance on any such forward-looking statements. RHB expressly disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or circumstances after the date of this publication or to reflect the occurrence of unanticipated events.

The recipient of this report should have regard to the laws of the recipient's place of domicile when contemplating transactions in the securities or other financial instruments referred to herein. The securities discussed in this report may not have been registered in such jurisdiction. Without prejudice to the foregoing, the recipient is to note that additional disclaimers, warnings or qualifications may apply based on geographical location of the person or entity receiving this report.

The term "RHB" shall denote, where appropriate, the relevant entity distributing or disseminating the report in the particular jurisdiction referenced below, or, in every other case, RHB Investment Bank Berhad and its affiliates, subsidiaries and related companies.

RESTRICTIONS ON DISTRIBUTION

Malaysia

This report is issued and distributed in Malaysia by RHB Investment Bank Berhad ("RHBIB"). The views and opinions in this report are our own as of the date hereof and is subject to change. If the Financial Services and Markets Act of the United Kingdom or the rules of the Financial Conduct Authority apply to a recipient, our obligations owed to such recipient therein are unaffected. RHBIB has no obligation to update its opinion or the information in this report.

Thailand

This report is issued and distributed in the Kingdom of Thailand by RHB Securities (Thailand) PCL, a licensed securities company that is authorised by the Ministry of Finance, regulated by the Securities and Exchange Commission of Thailand and is a

member of the Stock Exchange of Thailand. The Thai Institute of Directors Association has disclosed the Corporate Governance Report of Thai Listed Companies made pursuant to the policy of the Securities and Exchange Commission of Thailand. RHB Securities (Thailand) PCL does not endorse, confirm nor certify the result of the Corporate Governance Report of Thai Listed Companies.

This report is issued and distributed in Indonesia by PT RHB Sekuritas Indonesia. This research does not constitute an offering document and it should not be construed as an offer of securities in Indonesia. Any securities offered or sold, directly or indirectly, in Indonesia or to any Indonesian citizen or corporation (wherever located) or to any Indonesian resident in a manner which constitutes a public offering under Indonesian laws and regulations must comply with the prevailing Indonesian laws and regulations.

This report is issued and distributed in Singapore by RHB Bank Berhad (through its Singapore branch) which is an exempt capital markets services entity and an exempt financial adviser regulated by the Monetary Authority of Singapore. RHB Bank Berhad (through its Singapore branch) may distribute reports produced by its respective foreign entities, affiliates or other foreign research houses pursuant to an arrangement under Regulation 32C of the Financial Advisers Regulations. Where the report is distributed in Singapore to a person who is not an Accredited Investor, Expert Investor or an Institutional Investor, RHB Bank Berhad (through its Singapore branch) accepts legal responsibility for the contents of the report to such persons only to the extent required by law. Singapore recipients should contact RHB Bank Berhad (through its Singapore branch) in respect of any matter arising from or in connection with the report.

United States

This report was prepared by RHB is meant for distribution solely and directly to "major" U.S. institutional investors as defined under, and pursuant to, the requirements of Rule 15a-6 under the U.S. Securities and Exchange Act of 1934, as amended (the "Exchange Act") via a registered U.S. broker-dealer as appointed by RHB from time to time. Accordingly, any access to this report via Bursa Marketplace or any other Electronic Services Provider is not intended for any party other than "major" US institutional investors (via a registered U.S broker-dealer), nor shall be deemed as solicitation by RHB in any manner. RHB is not registered as a broker-dealer in the United States and currently has not appointed a U.S. broker-dealer. Additionally, RHB does not offer brokerage services to U.S. persons. Any order for the purchase or sale of all securities discussed herein must be placed with and through a registered U.S. broker-dealer as appointed by RHB from time to time as required by the Exchange Act Rule 15a-6. For avoidance of doubt, RHB reiterates that it has not appointed any U.S. broker-dealer during the issuance of this report. This report is confidential and not intended for distribution to, or use by, persons other than the recipient and its employees, agents and advisors, as applicable. Additionally, where research is distributed via Electronic Service Provider, the analysts whose names appear in this report are not registered or qualified as research analysts in the United States and are not associated persons of any registered U.S. broker-dealer as appointed by RHB from time to time and therefore may not be subject to any applicable restrictions under Financial Industry Regulatory Authority ("FINRA") rules on communications with a subject company, public appearances and personal trading. Investing in any non-U.S. securities or related financial instruments discussed in this research report may present certain risks. The securities of non-U.S. issuers may not be registered with, or be subject to the regulations of, the U.S. Securities and Exchange Commission. Information on non-U.S. securities or related financial instruments may be limited. Foreign companies may not be subject to audit and reporting standards and regulatory requirements comparable to those in the United States. The financial instruments discussed in this report may not be suitable for all investors. Transactions in foreign markets may be subject to regulations that differ from or offer less protection than those in the United States.

DISCLOSURE OF CONFLICTS OF INTEREST

RHB Investment Bank Berhad, its subsidiaries (including its regional offices) and associated companies, ("RHBIB Group") form a diversified financial group, undertaking various investment banking activities which include, amongst others, underwriting, securities trading, market making and corporate finance advisory.
