- Maintain BUY and THB160 TP, 34% upside with c.2% FY21F yield.** Kasikornbank is augmenting its collaboration with Muang Thai Life Assurance (MTL) via a new exclusivity bancassurance agreement (BA). Although the near-term uplift to earnings should be small, we believe this forms part of KBank's strategy to tap new wealth customers through more complete product offerings.
- Signs new BA with MTL.** On 2 Jul, KBank announced that it has entered into a 10-year BA with MTL, which will begin on 1 Jan 2022. Although shareholder approval is not required, KBank's board of directors will submit the transaction for consideration in an EGM scheduled for 26 Aug. This is done for transparency and good corporate governance, as the BA is a related party transaction – KBank has an effective 38.25% stake in MTL through its 51% interest in Muang Thai Group. This new BA will supersede the previous BA that has been in place since Nov 2009.
- Terms of the BA.** The BA may be terminated earlier if business performance targets are achieved, and may be extended for up to two years if the target is not achieved. KBank will be given exclusive rights to distribute MTL's life insurance products as well as health and critical illness insurance products via the distribution channels of the former and its five subsidiaries – Kasikorn Leasing, Kasikorn Asset Management, Kasikorn Securities, Kasikorn Factory and Equipment, and Progress Multi Insurance Broker. KBank will receive a payment of THB12.7bn (to be amortised at THB1.27bn pa) and a performance bonus.
- Rationale for a new BA.** Management believes the new BA will be highly beneficial for KBank. First, it will be paid an exclusivity fee and performance bonus – both of which were not included in the previous BA. Management also see this as an opportunity to augment its co-operation with MTL, which has the second-largest market share of life insurance product sales via bancassurance. Ultimately, a stronger partnership will further increase KBank's shareholding value in MTL.
- Financial impact.** The new BA will lift non-II at the bank level by THB1.27bn pa, plus a performance bonus. At the group level, there will be a reduction in profits attributable to minorities, since KBank consolidates MTL's financials in group reporting. Without taking into account the performance bonus, the new BA would result in an estimated THB627m reduction in minority interests – which should nudge KBank's net profit upwards by c.2%.
- Reversing downtrend in MTL's premium.** Between 2017 and 2020, MTL's total premium has declined from THB102.7bn to THB75.3bn. KBank believes that, with closer collaboration, MTL's premium income can recover. This would come with ramped-up efforts to tap the bank's high net worth customers, where KBank currently has only a 6% banca share of wallet, as well as aligning banca products to customers' needs.

How does KBank-MTL’s BA compare with past deals?

The BA value of THB 1.27bn per year is at the lower end of the THB1.18-1.63bn values seen in the three exclusivity bancassurance deals between 2017 and 2020. This reflects the currently less favourable economic conditions and low interest rate environment.

Figure 1: Exclusive bancassurance deals since 2017

2021	KBank-MTL	10	12.7	1.27

Optimistic BA will reverse the decline in premiums. Over the past two years, KBank booked net premium incomes of THB80.49bn in FY19 and THB72.13bn in FY20. Bancassurance accounts for 61% of total premiums. KBank's management believes the new BA will lead to a recovery in MTL's premium income.

KBank sees growth opportunities coming from the bank's high net worth customers, where it currently has only a 6% banca share of wallet. This compared to the share of wallet of 20% and 18% for its affluent and mass customers. Efforts will be made to better align the banca products with customer needs. Management estimates that a 1ppt increase in banca share of wallet in the high net worth segment would increase MTL's premium by approximately THB70bn.
