Land & Houses (LH TB)

Buy (Maintained)

Robust On All Fronts; Reiterate BUY

Target Price (Return):	THB11.00 (+27%)
Price:	THB8.65
Market Cap:	USD3,302m
Avg Daily Turnover (THB/USD)	332m/10.8m

- Reiterate BUY, new SOP-based TP of THB11.00 from THB11.50, 27% upside with and c.8% FY20F yield.** Land & Houses has the edge over its peers – especially when the industry has to weather a low cycle. Its diverse types of property projects lends this developer strength in being able to mitigate the negatives and sustain earnings growth.
- Conservative expectations, albeit still positive.** We deem LH as the leading developer, in light of its FY20 business plan. It aims to launch only low-rise projects (single-detached house (SDH), townhouse, and duplex) as there is currently an abundant supply of condominiums, while most property companies are prioritising liquidating their condominium inventory as much as possible. In its FY20 business plan, it expects to launch THB28.4bn (-7% YoY) in new projects. It will heavily load launches in 3Q, as it expects market sentiment to improve in 2H20, after being battered in 1H20. Note that it aims to launch only one luxury SDH project this year, compared to four in FY19.
- Making smart moves even in a tough year.** In spite of the sectorial difficulties in FY19, LH delivered earnings of THB10bn (-4%YoY). This was supported by an extra gain of THB1.9bn from selling Grand Centre Point Thonglor Hotel to a REIT in 4Q19, and its consistent revenue growth of 31% YoY from recurring businesses – especially from its rental assets in Thailand. These factors mitigated the 18% YoY decline in project sales revenue. Although the environment of dampened sales has negatively impacted some large pure-play developers, LH was relatively unscathed in FY19 – due to its strength in diverse segments, which its competitors will not be able emulate in the near term.
- Healthy kick-off to the year.** LH booked 2M20 presales of THB3bn (+21% YoY). That said, we believe concerns over the COVID-19 outbreak have intensified, and will negatively impact property buyers visiting projects. Its March presales may decline, in tandem with the lower visit numbers. As such, we project FY20 presales at THB23bn, 9% less than actual presales in FY19 and 18% lower than management's target. The majority of presales should kick in in 3Q20, when the company plans to launch eight low-rise property projects.
- Potential for another divestment.** Although FY20 should be a challenging year for the housing market, we believe LH will be able to maintain its net profit at around THB10bn – as it plans to sell apartment assets in the US by year-end.
